## Financial Assistance and Scholarship Support for Cadets

1. Overview At FSTC, we are committed to making pilot training accessible to meritorious and aspiring candidates. In alignment with the DGCA's student assistance goals, we provide comprehensive support for financial aid through bank tie-ups, state-level subsidies, and documentation assistance

2. Bank Loan Arrangements & Guarantees FSTC has established formal arrangements with leading nationalized and private banks to facilitate educational loans for our trainees.

Documentation Support: FSTC provides all necessary documentation, including the Bonafide Certificate, DGCA-approved Training Syllabus, and a Certified Fee & Payment Schedule, required by financial institutions to process loan applications

Loan Guidance: Our dedicated student cell assists cadets in understanding bank requirements and ensures a streamlined application process for training-related credit.

3. State Government Subsidies & Sponsorships We actively facilitate cadets in availing themselves of state-sponsored financial schemes and subsidies.

Welfare Schemes: Information and assistance are provided for cadets eligible for subsidies under various state-level aviation departments or social welfare schemes (e.g., for SC/ST/OBC or economically weaker sections).

Corporate Sponsorships: FSTC maintains records of active tie-ups or MoUs with aviation sector entities and airlines that may offer cadet sponsorship programs or "fly-now-pay-later" arrangements

4. Merit-Based Scholarships FSTC occasionally announces internal scholarships for top-performing cadets in ground school examinations. Candidates are encouraged to check the "Latest News" section for current scholarship announcements.

5. Transparency and Verification As per DGCA requirements, FSTC maintains full records of all cadets facilitated through these financial assistance channels for regulatory verification during inspections
