## Trainee Placement Assistance & Industry Tie-ups

1. Overview FSTC is dedicated to bridging the gap between flight training and a professional airline career. Our active placement cell works continuously to facilitate employment opportunities for our graduates within the domestic and international aviation sectors

2. Airline Partnerships and Cadet Programs FSTC maintains formal Memorandums of Understanding (MoUs) and tie-ups with leading Scheduled Airlines and Non-Scheduled Operators (NSOPs) to provide streamlined career pathways for our trainees.

Cadet Pilot Programs: We take pride in our collaborative programs (e.g., with major carriers like IndiGo and others) designed to select and train candidates specifically for airline operations

Type Rating Integration: Through our advanced simulation facilities, we offer integrated transition training that makes our graduates "airline-ready" upon completion of their CPL

3. Published Placement Records (Last 12 Months) In compliance with DGCA transparency mandates, we maintain a public record of our trainees who have successfully secured employment in the aviation sector

Trainee Name

License Type

Employing Airline/Operator

Date of Placement

[Name 1]

CPL / IR

[Airline Name]

[Month, Year]

[Name 2]

CPL / ME

[NSOP Name]
